

Public procurement in healthcare in 2021: organization and conduct of the procedures

State Enterprise “Medical Procurement of Ukraine” (SE “MPU”) invites to the meeting “Public procurement in healthcare in 2021: organization and conduct of the procedures”. The event is organized within the market consultations performed by the SE “MPU”¹ and aims to provide suppliers with the detailed information on the centralized public procurement of medicines and medical devices through the SE “MPU” with public funds in 2021.

The presentation will take place on **March 25, from 09.30 to 13.15**. Due to the restrictions, connected with the COVID-19 pandemic, the event will take place in two formats - **offline (up to 60 persons, who will register among the first ones; one representative per company) and online**. Offline format will take place with respect to all necessary anti-epidemic measures (wearing masks during the event, social distancing and usage of the antiseptics are required, checking of the temperature and ventilation of the meeting room will take place).

Information on the venue and links to live broadcasts will be sent to all registered participants. For registration we kindly ask to fill in the [form](#). Deadline - March 23, COB.

The following questions are planned to be highlighted:

- Results of the procurement of medicines and medical devices in 2020 by the SE “MPU”;
- Procurement of medicines and medical devices in 2021 by the SE “MPU” within 19 areas attributed from the Ministry of Healthcare: planning and conduction of the procedures, contracting and payments;
- Execution of the contracts and reporting;
- Peculiarities of conducting the procedures in the areas of ART and treatment of tuberculosis.

During an online event, simultaneous translation will be provided. All documents will be duplicated in English.

All questions regarding the event kindly refer to office@medzakupivli.com or +38 (063) 651 90 25.

The event takes place with the technical support from the USAID Ukraine project “Safe, Affordable, and Effective Medicines for Ukrainians” (SAFEMed).

State Enterprise “Medical Procurement of Ukraine” was established in October 2018 with the aim to organize and carry out state procurement of medicines and medical devices, as well as to act as the provider of services to the decentralized clients in compliance with the Law of Ukraine “On Public Procurement”.

The main goal of the SE “MPU” is to ensure transparent and effective state procurement in healthcare of high-quality medicines and medical devices, and to become Ukraine's central expert organization on the procurement of medical goods.

In 2020 SE “MPU” for the first time ever procured products for the Ministry of Health of Ukraine (MOH) central programs. In 2020, the CPA was authorized to procure products for 14 out of 38 MOH state programs, as well as procure personal protective equipment, rapid tests, COVID-19 medicines and equipment, ambulances and COVID-19 vaccines. We also developed Prozorro Market medical catalogues. Report on the results of the 2020 procurement is already [published](#). In 2021, according to the Order of the Ministry of Healthcare of Ukraine [№ 32 from 12.01.2021](#), SE “MPU” will perform procurements of medicines and medical devices for 19 areas.

¹ *The right of the organizer of the procedures to conduct such consultations is regulated by the Law of Ukraine “On Public Procurement”. The implementation of the provisions of the Law are envisaged in the Procedures for conducting preliminary market consultations before announcing procurement procedures, which is Annex № 1 to the Standard Operating Procedure “Organization and conduct of procurement procedures”, approved with the order of SE “Medical Procurement of Ukraine” from 12.12.2019 № 112 (with amendments).*
