You are invited to take part in the 28th international exhibition
“Gas. Oil. Technologies 2020” and the Russian Oil and Gas Chemical Forum in Ufa.
The aim of the events is to create an effective platform for demonstrating new products
in the industry and to bring together leading industry experts - representatives
of the Russian and foreign community!

UNIQUENESS OF THE PROJECT

- The largest international exhibition of petrochemical industry in Russia held since 1991, with 27 years of successful holding.
- Traditional support of the Ministry of Energy of the Russian Federation and the Ministry of Industry and Trade of the Russian Federation.
- The possibility of direct contact with key customers. The exhibition is included in the business schedule of managers of oil and gas, oilfield service companies, who make decisions on procurement.
- The wide geography of visitors to the exhibition, covering specialists from all oil and gas producing regions of Russia and the countries of near and far abroad..
- More than 350 exhibitors are key business figures in the oil and gas industry: the largest Russian and foreign companies in the chemical, petrochemical and oil and gas industry.
- Ufa is a meeting place for leading professionals in the field of oil, gas, and petrochemicals, where memorandums, agreements, and contracts for further cooperation are signed.

SECTIONS OF THE EXHIBITION

**Oil
industry**

**Chemistry.
Petrochemistry**

**Gas industry
innovations**

Gas fuel

Service

**Industrial safety
and ecology**

Overall results of the 2019 exhibitions

370
exhibitors

10
countries

37 regions
of Russia

17 116 visitors

12 156 sq.m

DRAFT AGENDA

PLENARY SESSION

«RAW, TECHNOLOGICAL AND MARKET RESOURCES FOR THE DEVELOPMENT OF THE PETROCHEMICAL INDUSTRY. ACHIEVEMENTS AND CHALLENGES»

Petrochemistry. Ecology	Oil and gas production and processing	Geology. Industrial safety. It solutions and innovations
Low tonnage petrochemistry: priority areas of development	Prospects of development of the gas motor fuel market in Russia	Exploration of hard-to-recover reserves: technological solutions and economic efficiency
International scientific-practical conference "Practical aspects of oilfield chemistry"	Topical issues of metrological support of oil and gas production	International scientific-practical conference "New geophysical techniques and technologies for solving problems of oil and gas and service companies"
International educational and scientific-practical conference "Pipeline transport – 2020"	Technological security of Russia in the field of oil and gas processing and petrochemistry	All-Russian scientific-practical conference "Industrial safety at explosion and chemically hazardous production facilities"
Elimination of accumulated technological risks. Environmental aspect		Youth scientific-practical conference "Geological and geophysical researches of oil and gas reservoirs"
		International scientific-practical conference "Information technologies. Problems and solutions. IT Days-2020"

Notable speakers

Khabirov Radiy,
Head of the Republic of Bashkortostan

Muratov Evgeniy,
Deputy Director of the Department of machine tools and investment engineering of the Ministry of Industry and Trade of Russian Federation

Shagislamov Rishat,
Head of oil production Department oil and gas production and transportation Ministry Of Energy

Zavorotniy Sergey,
The Federation Council of the Federal Assembly of the Russian Federation

Kapustin Vladimir,
Academician of the Russian Academy of Natural Sciences (RANS), Honored Scientist of the Russian Federation, Moscow

Salkutsan Sergey,
Acting Director, Institute of Advanced Manufacturing Technologies, Peter the Great

Maksimov Anton,
Director of the Institute of petrochemical synthesis of A.V. Topchiev of RAS

Mikko Hautala,
Ambassador of Finland in Russian Federation

Ryazantsev Mikhail,
Director of OOO RN-BashNIPineft (PAO ANK Bashneft)

Kandelaki Tamara,
Chairman of the Committee on Economic Reforms of the Association of Oilfield Workers and Petrochemists, General Director of OOO «InfoTEK-Consult», Moscow

Usmanov Marat,
General Director of OOO «Lukoil-Nizhegorodniinefteproekt», Nizhny Novgorod

Rezanov Aleksandr,
Executive Director of OOO «Yokogawa Electric CIS», Moscow

Overall results of the 2019 forum

A plenary sitting

More than 28 business events

325 speakers and moderators

2 601 listeners

Signing of cooperation agreements

100+ Journalists

300+ Publications

REPUBLIC OF BASHKORTOSTAN

The area of the Republic is **143 000** sq.m.

Bashkortostan borders with 6 constituent entities of the Russian Federation: Perm, Sverdlovsk, Chelyabinsk and Orenburg Regions, Republic of Tatarstan and Udmurt Republic

More than **100** nationalities

More than **4 000 000** people
(More than half of them are of working age)

The 7th most populous city of Russia

INDUSTRY STRUCTURE

There are **8,259** enterprises in the Republic, including **364** large and medium-sized ones, more than **300** of them belong to oil and gas industry

More than **180** oilfields in industrial operation

Production of more than **21 million** tons of oil per year

Refining of more than **18 million** tons of oil per year

Gas transportation is about **100 billion** cubic meters

10.7 thousand km of oil pipelines

Bashkortostan is the main producer of light oil products in the country and the production of diesel fuel takes **1st place**, motor gasoline **2nd place**, **3rd place** in Russia for the production of caustic soda.

Largest industrial complex specializing in organic and inorganic chemistry has been created in Bashkortostan.

The region occupies leading positions in Russian Federation in the production of chemical products:

1 place for the production of soda ash and benzene

1st place in terms of primary oil refining

3rd place for sulfur production

The Republic has a State program "Development of industry and increase of its competitiveness in the Republic of Bashkortostan" 2019 – 2024". The total amount of financial support of the state program in 2019-2024 will be **593108.8** thousand rubles.
